

REQUEST FOR STATEMENT OF INTEREST

Multi-family Pricing and Transportation Demand Management Pilot Project Request for Statement of Interest

DUE: September 6th, 2013, no later than 5:00 PM

QUESTIONS RECEIVED & ANSWERS

“What types of projects are eligible to receive funds?”

A key purpose on releasing this RFI prior to the RFP is to learn about the project ideas of interested participants, and then shape a program (RFP) that is responsive to these ideas. While this request is open-ended, we are generally interested in funding demonstrations that implement strategies related to pricing, transportation demand management, and/or parking management.

“Can a consultant not listed on the roster you provided in the RFI assist in the implementation of these pilot programs?”

While we are open to considering different arrangements, partnerships, and programs, we do not anticipate contracting with new consultants to complete work on these pilot programs.
